Cold Compression Universal	Part # C00016
Cold Compression Knee Pad	Part # C00017
Cold Compression Back	Part # C00020

Indications for use: The Polar Care Wave System is intended to treat post-surgical and acute injuries to reduce edema, swelling, and pain where cold and compression are indicated. It is intended to be used by or on the order of licensed healthcare professionals in hospitals, outpatient clinics, athletic training settings, or home settings.

References: 1. Waterman et al: Efficacy of combined cryotherapy and compression compared with cryotherapy alone. The Journal of Knee Surgery, Vol 25, No. 2, 2012.

*The Foot/Ankle pad at the cold setting may operate at temperatures above 60° F which only provides a cooling sensation

POLAR CARE WAVE

Premium Cold Therapy with *Compression*

The Polar Care Wave combines motorized cold therapy and active compression in a compact, easy-to-use system. It's portable, so you can use it at home or in clinical settings. Designed to reduce pain and swelling, it offers customizable treatment with adjustable cold and compression settings for personalized care.
