Q7

Handle Your Care

The Q7 wireless ultrasound system takes convenience and portability to the next level.

Its ultra-small size and light weight allow you to carry it right in your pocket, making it ideal for on-the-field use.

This affordable and user-friendly device is the perfect tool to enhance patient outcomes and support your diagnosis.

ULTRA-COMPACT DESIGN

Hyper-light weight (160 g) construction and compact design (150x40x25 mm) for on-the-fly scanning.

6 STREAMLINED BUTTONS

Facilitating control and image optimization for a simplified workflow.

STABLE WIRELESS CONNECTION

Support for Windows®, Android® and IOS® operating systems on PCs and smart devices through secure data flow management.

FAST START

Ultra-fast boot-up time (less than 5 seconds) for a quick response in any situation.

CLEANABILITY & DURABILITY

Fully waterproof for quick and easy cleaning. Built to last in any environment.

EXTENDED BATTERY LIFE

More than 4 hours of high-performance scanning with low power consumption (3W) to increase your productivity.

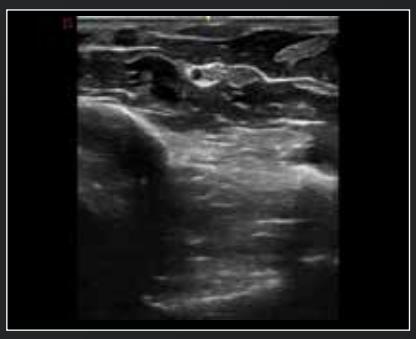

FLEXIBLE DATA MANAGEMENT

Flexible wireless dataflow with DICOM PACS and Worklist server query. User authentication and auto-anonymized images for safe handling of clinical information.

Quality Image at Your Fingertips

Q7 is easily adaptable to many ultrasound examinations and clinical applications thanks to its interchangeable technology, which allows you to change only the transducer head while leaving the base in place.
To improve your workflow and save even more time, find out more about the dual-use heart&ABS probe, which is designed for routine cardiac and abdominal examinations.
